I never thought about, all the ins and outs
We said forever vows baby can you do without
Can you do without me?
I know we've had our doubts, our sun is setting now
Who said it's over cause baby I can't live without
you,

Can you live without?
You and me and our debris
And everything that made it seem
Like you and me supposed to be
The envy of most everything and now

What's wrong?

How could we never try, to see each other's side?
I was so wrong but baby everybody hurts
And you hurt me sometimes
How can we stitch it up, the scars, the wounds, the
cuts?

Are we so broken and bruised that we can't feel the
love

The love that started with
You and me and our debris
And everything that made it seem
Like you and me supposed to be
The envy of most everything and now

What's wrong?
What's going on?

Baby how could we have ever let the melody we made
together
Get so far from where we started; Get so far from
where we started
You and me and our debris
And everything that made it seem
Like you and me supposed to be
The envy of most everything and now

What's wrong?
