I wonder what You think of me
When I put Your name in spotlights
And run into the dark night all alone?
I live like I'm changing with the seasons
When You give me every reason to stay by Your side
But still I hide

It's no secret
I know everybody knows
I need You
I need You
It's no secret
That I'm afraid to be alone
I need You
I need You now

I gotta get this off my chest
I've been drowning in the ocean
Pledging my devotion to the one I left
For something in between
My hands and the unseen
You've been here every day
I ran away

Every single second
Every minute that goes by
I need You
