Once again you compramise  
Theres no life in your hopless eyes  
But its just like yesterday  
If you listen to what they say  
And you feel hopeless  
And you feel lost  
And you feel Hopeless  
And you feel lost

And your tiered of playing the fool  
All your tears could form a pool  
Of heartbreak and hopelessness  
You hate this life like all the rest  
And you feel hopeless  
And you feel lost  
And you feel hopless  
And you feel lost

Open your eyes dear friend  
And see that this is not the end  
Cause' theres a man before you lived  
If the love was a power to forget
