

Hoodless "Waiting"

Visit "[Waiting](#)" on MotoLyrics.com

Hold you breath and wait, there's nothing like
anticipation

Savor every second just before you hold your
Hands keep shaking, almost ready
Is this what you were expecting?

(CHORUS)

What have you learned from this
What happens when you

Wait so long that nothing ever
Lives up to what you wanted

Let it out, open your eyes, see what I brought you
Is it all you hoped for? Is it disappointing?
Nothing matches expectation
But your own anticipation

(CHORUS)
