When you got noone else to turn to, yeah
When you see that no one's on your side
Know that you can count on me
I'll be there for you as strong as I can be
So cast your fears aside

I got your back
You'll never have to worry
'Cause I'll never rest
I got your back
Say you do something crazy

And all I say is yes

If someone gets in your space
It's me they'll face
Any place, any time
Oh, I've got your back
'Cause I know you got mine

You know I've got your back
You can depend on that
Like you got mine
You can always count on that
Oh, I got your back
