

## Joey Gaskin "Mustang Sally"

Visit "[Mustang Sally](#)" on [MotoLyrics.com](http://MotoLyrics.com)

She had the prettiest eyes that I ever did see, an ocean green

But now I learn that's not the color they're supposed to be

They're really brown, now the truth comes out  
I don't even have time to tell you of all the things that she's lied about

She stays on the prowl

Cause every night she's out

Driving behind that wheel of shame she act so proud about

She reeks of patton leather but under the mascara

Is an abused, confused, lonely child

She's going twenty miles, over the limit

I think she just doesn't get it

She pulled up my digit

I was so intrigued, she had me sold

Until I found out the truth

This little miss Sally was a rolling stone

She said her name was Sarah

But they say she goes by Mustang Sally

I should've known

That this would happen

But I let her lead me on

Now I can't believe

She's been running all over town

Putting it down

Mustang Sally, she burnt me

Sally, she burnt me, Sally, she burnt me

Dealing with that

Mustang Sally, she burnt me

Sally, she burnt me, Sally made me look like a fool

She's burning rubber on that Cobra

I just couldn't get over

How she had me mesmerized, so hypnotized

Until I heard about what she did to these other guys

She left them out to dry

No, now she cannot hide her face

She's broken like a vase

She's married to a Mustang the same shade of red as  
her lipstick trace  
But soon one of these days  
She's gonna have to slow her engine down  
And put her feet back on the ground  
It's always ends in collision  
It's going to backfire  
But there'll be no one around to dry her weeping eyes  
She's too busy driving fast  
Some things you cannot outlast  
Look up, it's too bad this time  
I believe Sally's out of gas

She said her name was Sarah  
But they say she goes by Mustang Sally  
I should've known  
That this would happen  
But I let her lead me on  
Now I can't believe  
She's been running all over town  
Putting it down  
Mustang Sally, she burnt me  
Sally, she burnt me, Sally, she burnt me  
Dealing with that  
Mustang Sally, she burnt me  
Sally, she burnt me, Sally made me look like a fool

She said her name was Sarah  
But they say she goes by Mustang Sally  
I should've known  
That this would happen  
But I let her lead me on  
Now I can't believe  
She's been running all over town  
Putting it down  
Mustang Sally, she burnt me  
Sally, she burnt me, Sally, she burnt me  
Dealing with that  
Mustang Sally, she burnt me  
Sally, she burnt me, Sally made me look like a fool
