B. Walsh/ G. Prestopino/A. Gold

I've tried my best, for so long

To break down these walls, but you build them strong

So I stand here waiting, wandering why oh why

Why don't you give a little bit, break down and give a
little bit...ohhh

Chorus:

Show, show some emotion

Open, open your arms

Set free an ocean

Only a feeling can save us now

You say you've been hurt, but your not alone

As you race through life what you keep to yourself, can
turn you to stone

All it will take is one kind word, to be heard

Come on and give a little bit, try to forgive a little bit.

Chorus (3X)
