J. Lind/ P. Galdston

We held each other 'till the moon was high

We waved that sleepy little town goodby

And driving off together we crossed our hearts

Living for the promise, that love would keep us honest

I said I'd be yours if you'd be mine...we were crazy baby

And every day the sun was sure to shine and we tried
and we tried

And sometimes the wind makes a sudden change

And some days are made for rain

We fixed the tire and we drove like hell

We kissed like fire in a cheap motel

I never felt the hunger so bad before

Holding you beside me, walls came down inside me

I thought I was yours and you were mine...that was
crazy baby

I was sure the sun would always shine, but we tried and
we tried

Sometimes the wind makes a sudden change

And some days are made for rain

You wanna talk about love

I'll tell you all about love

Nothing but trouble, wont tap a heartache

One day you're walking on out

Next day you look, and there's no one there

She never cared...She never cared

Now I've been sleeping with the TV on

I get so tired wondering were you've gone

You tore across my heart like a hurricane

I'm counting up the damage trying how to manage

I thought I was yours and you were mine...that was
crazy baby

I was sure the sun would always shine, but take a look
outside

Sometimes the wind makes a sudden change

Here come those clouds and they, are full of rain

And some days are made for rain

Some days are made for rain

Let it poor outside
