H. Knight/M. Chapman

Sometimes we need to start again

When this crazy life of ours slow

And I guess that's why fools like us rush in

Where wise men never never go

In time we may find out why

These walls we built seem so high

But I got to believe (hey I got to believe)

That we can break through

And I got to believe this love is good for me and you

Chorus:

And all we have to do to make it last

Is try a little harder, try a little harder

All we have to do to make it good

Is try a little harder, try a little harder

Your the wild fire in my life

Always running out of my control

Sometimes you cut me like a knife

Deep into my heart, way down to my soul

But somehow we survived

Can we get another chance to make it right

But I got to believe (hey I got to believe)

That we know which path to choose

And I got believe somehow we will see it through

Chorus

Each precious moment that we shared

Is locked up in my heart forever more

I just need to know that you really care

When you touch my hand, swear I'm gonna fall apart

Chorus

@Beautiful Night

M. Wilder/G. Prestopino

I thought it would rain forever

Calling the floods, reaching for some higher ground

Just before I went down

This heart fought to remember, just how I got through

And I'm lying on the cool sand

Happy here where I am

I looked up, the setting sun is bathing the world with
the healing light

Little darling, is going to be a beautiful night

The rolling of distant thunder

Trouble ahead, now don't you be afraid now (don't you
be afraid now)

You'll get through it some how

Just look up, the setting sun is bathing the world with
the healing light

Little darling, is going to be a beautiful night

Some like burning all night long

Some like howling at the moon

Some just like to sing along

'Cause we get lonely (lonely) we get so lonely

The stars in the sky above me

Can make me forget, everything but you babe
(everything but you babe)

Everything but you

I looked up, the setting sun is bathing the world with
the healing light

Little darling, is going to be a beautiful night

Just look up, the setting sun is bathing the world with
the healing light

Little darling, is going to be a beautiful night
