Oh, the girls watched from their balconies  
They filled the air with whispers  
Of spite and petty jealousy  
Like Cinderella's sisters

They say that if you stay with me  
Your heart will soon be broken  
Their bitter words must go unheard  
As if they've never spoken

I love you for better and for worse  
Girl, you are my whole universe  
Ever since we've been together  
Since we've been together

You're my one lover  
My best friend  
I'll never say this is the end  
I married you forever

Take me to heart  
When I say I'll never leave you  
Take me to heart  
When I say I'll always love and need you

I'll love you 'til my final breath  
'Til death do us part  
Don't forsake me  
Baby, take me to heart

Take me to heart  
Take me to heart  
Take me to heart  
Take me

In the past you'd always find me  
In some sticky situation  
I thought that playing fast and free  
Enhanced my reputation

Oh, but I was wrong, the past has gone  
It's ancient history now

We pledged our love to build upon  
And never disavow

I love you for better and for worse  
Girl, you are my whole universe  
Ever since we've been together  
Since we've been together

You're my one lover  
My best friend  
I'll never say this is the end  
I married you forever

Take me to heart  
When I say I'll always love you  
Take me to heart  
When I say there is no one above you

I'll love you 'til my final breath  
'Til death do us part  
Don't forsake me  
Baby, take me to heart

Take me to heart  
Take me to heart  
Take me to heart  
Take me to heart

Take me to heart  
Take me to heart  
Take me to heart  
Take me to heart

Take me to heart  
Take me to heart  
Take me to heart  
Take me to heart

Take me to heart  
Take me to heart  
Take me to heart  
Take me to heart
