Just gonna sit here and get real fat  
But that's alright I'm completely fine with that  
And I'm gonna do this 'til the day I die  
It's because I just love eating curly fries  
I'm in love with curly fries

I can't tell you why I'm like this,  
I can only tell you what I do. And  
Right now we're about to go on a fun bike ride  
Then make a delicious curly fry pie. (Mmmm!)  
If eating curly fries is wrong then I don't wanna be right

Watchin the Telly, Watchin Free Willy  
Now were kicking back and reminiscing  
About the past and the good ol days  
One time we went outside to jump on the trampoline  
But, then you fell off and then my dog ate you.  
That was so rude, of him to do.  
I went inside and put your remains in my left shoe  
Then that one time I put you on a leash  
We took a long walk, it was just you and me  
Then you went behind my back, stole my phone and  
called the cops on me  
I got mad and took u to the kitchen and chopped you  
Into a bazillion pieces, sorry, my bad dude  
I forgot to give you a proper name  
So now it's Carlisle, so Carlisle would you make my life  
And be my lawfully wedded wife. Say I do

We'll get a house together  
With a white picket fence, live in the hills  
I'll be a stay at home husband  
For real!!!

Just gonna sit here and get real fat  
But that's alright I'm completely fine with that  
And I'm gonna do this 'til the day I die  
It's because I just love eating curly fries  
I'm in love with curly fries
