I've carried a weight a very long time  
like a black stone, a hopeless crime  
Past the fields, past the towns  
I've measured hills and dales  
Up and down

If I rest I am sure you are there waiting  
for my mind to break down  
and your soul to take control

I am here, I'm not going down  
I will carry on to do what I must do  
To see the truth behind your whispering lies  
I am not yours to take down

I covered my face in the darkest night  
Changed my name and foolish hopes  
You are still lingering here in every thought  
Still myself and still yours

If I rest I am sure you are there waiting  
for my mind to break down  
and your soul to take control

I am here, I'm not going down  
I will carry on to do what I must do  
To see the truth behind your whispering lies  
I am not yours to take down

Someday I'll turn my head around  
and I'll look you straight in the eye  
You are all I fear for you are all I love,  
my decay.

Here, I'm not going down  
I will carry on to do what I must do  
To see the truth behind your whispering lies  
I am not yours to take down

Here, I'm not going down  
I will carry on, to do what I must do

To see the truth behind your lies  
I'm not yours!
