Well I only wish that we could stay and  
Spend the rest of everyday  
In the place where it's summertime forever  
I'm gonna dream about the time we spent and  
Send my love to all my friends  
And I'll see you when summer comes again  
When I close my eyes I see your face  
And I realize how much I love this place  
And I know that this is where I wanna be  
With you right next to me  
You'll always be

The feelings that I get  
Stars in the sky  
And I will not forget the summers of my life  
Where the days are weeks and each hour is a day  
Please don't go away  
Please don't go

Well I only wish that we could stay and  
Spend the rest of everyday  
In the place where it's summertime forever  
I'm gonna dream about the time we spent and  
Send my love to all my friends  
And I'll see you when summer comes again  
When I close my eyes I see your face  
And I realize how much I love this place  
And I know that this is where I wanna be  
With you right next to me  
You'll always be

The good times, the moonlight

A campfire, and poolside  
A food fight, and those nights  
When we must have seen a million shooting stars  
A first kiss, a big crush  
I love you, and so much  
The big fields, the veggie meal  
I'll see you in Israel  
The tower, I'm so scared  
You told me you'd be there to catch me if I fall

The kickball, the free time  
The bunk time, it's our time  
I wish there was more time  
I think about you all the time  
The pine trees, pagodas  
The bug juice, a soda  
The rainy days and the games we play  
And the twisted candle burning burning bright  
You borrowed my flashlight  
We stayed up the whole night  
The counselors  
I can't wait for the color war  
My best friend, the chapel  
And snack time, an apple or ice pop  
And don't stop, and don't stop, and don't stop

I pack up my car  
I'm on my way  
My parents say it isn't far  
I have been counting the days  
And the butterflies as I drive through the gate  
Not everything's ok  
Now everything's ok
