please don't ask again how i am feeling  
can't you see the anguish clearly written on my face  
why must we treat this ground a hundred times  
when all i'm asking of you is to grant me a little space

don't push me now, don't push your way in  
'cause if you push me now i'll end up further still  
i am trying to find certainty, i'm trying to be sure  
and though i try my best to promise you i can't hide  
from my will

and i ask myself, could i fall down for you and could i  
break down for you  
and could i come around for you  
but the answers are elusive

where would i go if i decided just to slip away  
leaving no traces behind me  
would you look far and wide  
in thousands of places attempting to find me  
then would i fall down for you and would i break down  
for you  
and would i come around for you  
the answers are elusive

sometimes it seems like the trouble and turmoil will  
never end  
sometimes it's hard to believe all our struggles will  
cease  
and our spirits will be on the mend  
yeah, we'll be on the mend

go turn the lights down  
if we could cast this room in shadows we might invite  
the silence to follow  
and in the still of night  
maybe you'll see why i'm feeling so hollow

and maybe then i'll fall down for you and maybe then  
i'll break down for you  
and maybe then i'll come around for you
