"Waiting"

look to the depths of your imagination, you'll find me
waiting
if this is more than an infatuation, you'll find me
waiting
right now you're looking for something to help you
believe
you can't conceive of it if you can't trust it when you
can't see it

so open your mind to me, please don't be blind to me,
find me waiting
open your heart to me, your deepest part to me, find
me waiting
don't waste your time trying to understand why we
are here
life simply happens as we make our way through the
days and years

i will try, i'm anticipating, i'll try even when all hope
is fading
i'll try to be patient while quietly waiting

waiting for you

look at the way we are, look at us from afar, i'll be
waiting
try not to feel confused, let yourself be amused and
i'll be waiting
there's nothing to worry about, to hurry about, so let
yourself breathe
and don't let yourself step away from the path
that you know will lead you to me

i will try, i'm anticipating, i'll try even when all hope
is fading
i'll try to be patient while quietly waiting
i'll try, i will be steadfast, i'll try and i will be there in
your last chapter
i will be patient and quietly waiting for you, you
i will be patient and quietly waiting for you
