I don't want to spend another second
A second away from you
I can't live unless I'm reassured
That we'll pull through
So don't leave my side
I can answer all your questions
But you're not here for a lesson
You're here to say goodbye

Don't walk out that door
It locks from the inside
And don't say anymore
About why I'm better than the other guys
Don't walk out that door
It locks from the inside
And don't say anymore
You're just like all the other whores I know

Nothing can explain why I'm here
Like your smile does everyday
Why do you always cut me off
When I'm just about to say
That I love you with all of my heart?
You're amazing in everyway
Let's take it from the start

Don't walk out that door

It locks from the inside
And don't say anymore
About why I'm better than the other guys
Don't walk out that door
It locks from the inside
And don't say anymore
You're just like all the other whores I know

Give up on everything you think about me
Don't try to make me something I don't want to be
There is no reason for these rules unspoken
There is no reason why I'm so lonely
I don't deserve to have my heart this broken
I never want to see you again if we can't take it

slowly

Don't walk out that door
It locks from the inside
And don't say anymore
About why I'm better than the other guys
Don't walk out that door
It locks from the inside
And don't say anymore
You're just like all the other whores I know
