We can move forward
As fast or as slow as you would like
It doesn't bother me either way
'Cause you have changed my life for the better
You said I'm the most amazing guy in the world
But that's not true
'Cause I'm out of this world when I'm with you

The thought that this was my last first kiss ever
Has been flooding my head for hours now
It's daunting but it's not a though
I ever want to get rid of
As I walk alone down this crowded road
I am comforted 'cause I'll always know
That you and I while not side by side
Will forever be under the same sky

You don't need a reason
I'll do anything you want
And when the seasons change
I will still be with you
We'll stand even in the rain

The thought that this was my last first kiss ever

Has been flooding my head for hours now
It's daunting but it's not a though
I ever want to get rid of
As I walk alone down this crowded road
I am comforted 'cause I'll always know
That you and I while not side by side
Will forever be under the same sky

I can't walk an inch without you
And I can't remember what life was like without you
Will you remember me when you are old
I know you're the only one I'll ever hold

The thought that this was my last first kiss ever
Has been flooding my head for hours now
It's daunting but it's not a though
I ever want to get rid of

As I walk alone down this crowded road
I am comforted 'cause I'll always know
That you and I while not side by side
Will forever be under the same sky
