I can't help it maybe I'm falling
or I'm crashing like a plane to the ground
what so crazy is I kind a like it
I will let all this walls come down
You see me broken and shethered
lost and am i scattered
like a puzzle that waiting for You
to come to pick up the pieces
places where them needed
fixed long overdue

catch me if you can
give me a view help
cause I'm just a man who is lost where I found
living with a heart of heart that is steel
longing for You

Maybe I'm frighten
or I'm scare to love somebody new
what so crazy is I kind a like it
I'm glad you see me they way like You do
catch me if You can
give me a view help
cause I'm just a man who is lost where I found
living with a heart of hearts that is steel
longing for You
longing for You
longing for You... I'm frightening without You

catch me if You can
give me a view help
cause I'm just a man who is lost where I found
living with a heart of hearts that is steel
catch me if You can
give me a view help
cause I'm just a man who is lost where I found
living with a heart of hearts that is steel
longing for You
I can't help it maybe I'm falling
or I'm crashing like a plane to the ground
