"Bees Have Turned Into Flies"

Visit "[Bees Have Turned Into Flies](#)" on MotoLyrics.com

I've been worried about my future
I've been worried about it in the past
Kind of money that I wanted
Kind of life that I've always desired
My song is censored though I think I'm frank,
I'm too scared to even open my mind
My own soul I've peeled so endlessly
Orchestrating my self-sympathetic bees

All the bees have turned into flies now
I've been worried about it in the past
Kind of woman that I wanted
Kind of life that I've always desired
I long for calmness, once it used to be
I'd rather have none than these soulless bees
I'm slowly sinking in the sea of evil bees

My own moves have now become my disease

I long for calmness, once it used to be
I'd rather have none than these soulless bees
My own soul I've peeled so endlessly
Orchestrating my self-sympathetic beeeeeeees
I've been worried about my future and I've been
worried
about it in the paaast
I've been worried about my future

My song is censored though I think I'm frank
I'm too scared to even open my mind
My own soul I've peeled so endlessly
Orchestrating my self-sympathetic beeeeeeees
And I've been worried
