"You Have A Light"

Visit "[You Have A Light](#)" on MotoLyrics.com

it's a secret of mine that i've got to keep so you'll think
i'm smart
i know you've got your own so don't you even start

take my hand
you pull my hair
take my breath away
i know you are the only thing i think today

these things are all true in their own way

oh yeah
oh yeah
oh yeah

don't talk to me about the weather
because together is the only way we'll see

hello, oh no
please don't talk to me
because from where i stand the light just seems too
bright

hello, oh no
please won't you talk to me
because it's dark outside and i know you have a light

i don't care about the sun anymore
it's darker than your eyes
circle closes in my mind
and it's ok, yeah
now i'm not afraid

it's a secret of mine that i've got to keep so you'll think
i'm smart
i know you've got your own so don't you even start
take my hand
pull my hair
take my breath away
i know you are the only thing i've thought today

don't talk to me about the weather

because together is the only way we'll see

hello, oh no
please don't talk to me
because from where i stand the light just seems too
bright

hello, oh no
please won't you talk to me
because it's dark outside and i know you have a light

these things are all true in their own way

oh yeah
oh yeah
oh yeah

dont talk to me about the weather
because together is the only way we'll see

hello, oh no
please don't talk to me
because from where i stand the light just seems too
bright

hello, oh no
please won't you talk to me
because it's dark outside and i know you have a light
