Act I

Is it all over  
Have we finally crossed the line?  
I still want to hold you  
But there's not a chance to even try

Last words were so cold an mean  
What you said to me  
Turned me into darkness  
Now I'm waiting all alone  
I need to know  
Where are you?

I can't wait to see you again  
My mind in a storm of uncertainty  
I must have been a fool  
What a fool

Too much pride to swallow

In the name of a lie we part our ways  
With a woeful cry I call your name  
In this hatred our hearts will burn and die  
I'll never  
I'll never forgive or cry  
Why?

In our conviction we are  
Held hostage by our mind  
I lack the strength to break away

Or to try another day

I feel like we are caught in a web  
We have been hanging for eternity  
No way out without going down  
We'll go down

Act II

All the fighting

All the lies  
All the words  
All the crimes

Days go by  
I need to see  
Where is the line  
Where is my peace

In my mind  
In my soul  
You left me crying  
I'm all alone

Act III

Fading  
Are you fading away from my life?  
Yearning  
Longing for you words  
I'm not ready for goodbyes  
Waiting  
Waiting for you to come  
Returning  
I am waiting for the day  
When I can tell you why
