### 6. Paragon Council

Final morning, other time  
In the city kingdom rill.

The Paragon's Head Council  
Met to make the world stand still.

Each member spoke with  
What he's asked for  
All too need was known.

As long ago the World's  
And the Heaven's charts had shown.

As rainbow fire scorched the land  
And war wheels filled the skies  
The Paragons began their schemed  
Ending of the lie.

Feelings thought  
And music's formed  
They fashioned with their hands.

In thoughts of calm, forever time  
They see a type of plan.

The Council ended with the flood  
Erased their world from time.

Still deep in every memory  
Sleeps the Paragon Design.
