Verse

I feel so alone, too many no shows
It's supposed to be great, but it's not so great.
'Cause I, I got this thing, deep inside,
Won't let me hide, I gotta let you know, I gotta let you know

I feel so alone, too many no shows
It's supposed to be great, but it's not so great.
'Cause I, I got this thing, deep inside,
Won't let me hide, I gotta let you know, I gotta let you know

Chorus

I can't be let down
No, no I can't be let down

Verse 2

'Cause I'm this chord that I strum
These strings are me to the bone
I can't barely talk, but I sing a lot
I sing a lot

'Cause I want to do the right thing
With my right brain
We killed the best of us dead
With our left heads, with out left heads

Chorus

I can't be let down
No, no I can't be let down
