Words fly like bullets
Each one aimed straight for the heart
And there's no take backs
No no no once they start
Let's lay down our pride
Put our anger aside
It doesn't matter who's wrong or right

[CHORUS]
If it takes
If it takes all night
If that's what it takes
To make this thing right
Let's take our time
If it takes all night

I just wanna hold you
And kiss you until we forget
It sounds good to me
Why don't we put this thing to bed
I'll fall into you
You'll fall into me
Oh lets make love till we lose all our strength

[CHORUS]
I'll fall into you
You'll fall into me
Oh lets make love till we lose all our strength

[CHORUS x2]
