It comes as no surprise when I look around and find
That you have whet this appetite with such a rare
delight

And now my lite fly slides like a good time rhyme
Up and down my bass line

(chorus)

Excuse me while I light your fire

You really blow my mind

My funky valentine

My funky valentine

Oh, those lips could sink a thousand ships

Lick those lips and take a hippy, hippy, hippy trip

To Mars or Venus or some astral plane

Where we can be alone or not too out of place

(REPEAT CHORUS)

P. P. Reubens was a groover; he would have liked your
style

You know exactly how to make the big boys cry

Curvaceous, avaricious, lush and malicious

I just can't think of anyone who's more seditious

(REPEAT CHORUS)

My funky valentine

My funky valentine
