Came on a hurricane  
From a southern town  
Some place that had no name  
She's fats and furious  
And pretty boys on TV sets  
Have made her curious  
(chorus)  
This girl's on fire  
She can't get any higher  
Right from the start  
She'll break your heart  
This girl's on fire  
Love is not what she brings  
She breathes a passion into me  
It colours all my dreams  
She says she'll never sleep  
Until this city howls and screams  
Burns down 'round her feet  
(REPEAT CHORUS)  
Yeah this girl's on fire  
She can't get any higher  
She's a passionate child  
You know she'll love you wild  
This girl's on fire  
I wanted to take her home  
A thousand summers all my own  
But I just let her go  
And witches still get burned  
And boys get scared at every turn  
When will they ever learn that  
(REPEAT CHORUS)  
This girl's on fire  
She can't get any higher  
She'll leave you blind  
She'll leave you behind  
This girl's on fire
