I hit ya BBM
And tell you when my plane arrives
You wants to be my girl
Even if its just for the night
You want to take me out
show me off to all your friends
And I just play along
Like I'm your man

I love the way you please me
Whenever I'm in town
Come meet me in the lobby
And brings your girls around

I tell you what you want
you give me what I need
We keep it on the low low
Between u and me

We in the sheets
I'm a take you to her highest peak
Make you feel a rush
From your down to her feet

Understand I get around
Like I come around
Signing out like thai viet g
Can't be tied down

[Hook]

if i give you one night, are you down
it'll be just one night, i'm in town
baby i aint messin' around
if i give you one night, are you down

you can be my girlfriend
you can be my girlfriend
you can be my girl (aye)
you can be my girl (aye)
you can be my girlfriend
you can be my girlfriend

[J. Reyez]

girl I'm around in your town, the night's just begun
I see you lookin' at me, I'ma make you number one
she work it, got a sexy dress and them black stilettos
I'm trying to think, which girl in here feeling special
and you're well reminded, I'ma make you love again
close your eyes, you and I, we can just pretend
show you a good time, making sure you won't regret it
treat you like you're my all and I know that you won't
forget it

fall into the position, both in alignment
let you feel what you been missing when I get behind it
so go and dim the lights, nah we ain't moving fast
before you spend the night, there's one thing that I
gotta ask

[IZ]

set yo' watch 6 o' clocks when the plane lands
yeah i got a show but really your my main plan
im yo main fan i can be ya main man
but only for tonight girl i got gameplans
and i know you got your game too
you might have a man, I ain't tryin to change you
but my change grew, and my range new
aint talkin homicide but i can have your brains blew
but when the sunrises, girl im out quick
sorry but my ticket says LAX- ROUND TRIP
but tonight imma be yo umbrella
heres a glass slipper, you just be cinderella UH!

[Lil Crazed]

aye baby it aint often I'm off in this side of town,
body rockin, such a problem, got me thinkin naughty
sounds,
You got a man but understand that he is not around,
if it go DOWN,
Ill show u I don't CUSS but I got a POTTY MOUTH,
Nice to meet you Victoria, I got what you needing,
Now that we're acquainted, I wanna know about Vicki's
secret,
bone crush ya, make ya body hate me,
While you loving how I keep it moving, ADHD,
Take you to the sky before I hit my next flight,
Engage contact, marry our bodies, then u my ex wife,
Cuz after tonight babygirl I'm LEAVE-ING,
And even if you FALL, I'ma SPRING up like the seasons
