"Strike without a warning

WIKSTRÅ-M/ERNLUND/BORGER

Sending out a message
Breakin' down the door
We're getting out of here
'Cause we're young and wierd
Ready - Aim - Fire
All made of steel
Comin' in the night
With all our might -
We don't fool around
We'll make you shiver and shake
Keep you awake
And you can't keep us down
Strong enough - to take control
Wild enough - To let it roll
We're breakin' out
The walls around us tumblin' down

Strike without a warning
Straight through the heart
Strike without a warning
We are the light in the dark

Runnin' up the street makin' my day
Like a car in overdrive
You don't have to stand awake hidin' in the wings
When it's time to come alive
We're riding in the back of my limousine
At a hundred miles an hour
Livin' in the dark searching for a spark
Got the will and the power

Strong enough - to take control
Wild enough - To let it roll
We're breakin' out
The walls around us tumblin' down

Strike without a warning

Straight through the heart
Strike without a warning
We are the light in the dark
We are the light
