"Take my hand

WIKSTRÅ-M/ERNLUND/WINTER

It's a crazy life we live
People take but they don't give
They want to take you for a ride
Drink her fill, leave you high and dry
If we hold on a little while
I know that times are changing
I'm reaching out and saying

Take my hand
Come with me again
Lonley night will just be memories
For you and me

Every step along the way
Every hour every day
In a world that's filled with pain
There's still a chance
For us to find a way
If we hold on a little while
I'm tired of this waiting
I'm reaching out and saying

Take my hand
Come with me again
Lonley night will just be memories
It's up to you and me
