"IWaiting game

WIKSTRÅ-M/ERNLUND/WINTER

I never had a chance
Once I set my eyes on you
Thought I knew you from the past
From some other life
Was it in a dream
Seems like we met before
Will you ever show
Your feelings inside?
I think about you all the time
You're always on my mind
Lonley days and lonley nights
I'm falling again

In this waiting game
We're all the same
Love will find the two of us

There's a hunger in my soul
A part of me that takes control
Searching everywhere
Waiting for my chance
When I looked into your eyes
Knew this waiting game
Was over at last
I think about you all the time
You're always on my mind
Lonley days and lonley night
I'm falling again
