Had a long day, and I'm fed up with ya naggin
I'm wishin I could lie but you the reason why I'm
draggin

You brought me down, so you better pick me up
Yeah, yeah you better pick me up
Yeah, yeah you better pick me up

I'm not gonna lie I love this chick
And I love it even more when she rubbin it
Publicly I'm infatuated lovin all the hugs and s***
One minute we good, then the next one we be fussin
and
I'm fed up with the lack of love girl I've had enough of it
It's too abundant, too redundant, ain't sure if we suited
for it
I address it, you ignore it, you against it when I'm for it
Ain't you supposed to be the closest to me?
Cuz I'm a King and you the Queen that I have chose ya
to be
I hold ya close like a rosary, right next to my heart
But when I'm showin you the light you still tryna keep
me in the dark
I try so hard, I try so hard, I get burned like a CD-R
Got me seein red every time we fightin I can't breathe
no CPR
But ya pretty face got me in a daze, that's the reason I
can't lie to ya
Stressin yes it's obvious that drama's become part of
us
Hopin that it parts with us as hard as it may seem
Cuz it's limited progression when you sabotage ya
team

Had a long day, and I'm fed up with ya naggin
I'm wishin I could lie but you the reason why I'm
draggin

You brought me down, so you better pick me up
Yeah, yeah you better pick me up
Yeah, yeah you better pick me up

Yeah you better pick me up and I ain't talkin bout a car

ride

You trippin bitchin every day it only goes so far I
Try to keep my temper low but she knows what my
triggers is
Now I'm gettin sick of this, point less and ridiculous
I tried to make a point but like a joint he bended it
Twisted it flipped it on me now she right back on the
fence again
Actin all defensive got offended by some little s***
I check it at the door cuz I ain't f***in with no
middlemen
Hear me out, cuz I'm speakin loud and clear
And if you go against the grain, get the hell up outta
here
She gettin hella mad, now she shut off like the power's
down
Sayin I don't give a f*** I'm bout to take a shot of
Crown
Girl quit trippin I'm so tired of the bulls***
We got enough problems, yeah we ridin with a fullship
Tell me what's the culprit cuz I think you here to stay
I wanna keep you in my life, but we really gotta make a
change cuz

Had a long day, and I'm fed up with ya naggin
I'm wishin I could lie but you the reason why I'm
draggin
You brought me down, so you better pick me up
Yeah, yeah you better pick me up
Yeah, yeah you better pick me up

What's to blame, I don't even really know but I thought
that I figured it
out
Guess I went the wrong route, never livin in doubt and I
always been about
large amounts
She lovin every characteristic I show and we tried to hit
a mark but we
missed it yo
So I'm pissed off and clenchin my fist and I really don't
get why she made
like this
So, time to slow the arguments, let's surprise the
audience
No more bein stone cold, let's get past the problems
that
We created, I see debatin ain't really been makin
anything at all better
But makin us bitter like we lost a job
When it's been good it's been worth it all

Y'all know what I'm talkin bout she someone that I'm
fond of
Got me thinkin conflict is the reason why we bonded
Every time I left I said I'd never come back
But we never let it go it's like we signed a contract
Plus, I know that she feelin me I can see it in her eyes
But with everything we've been through I can't act like
I'm surprised
Don't know why we keep it up? Oh yeah it's cuz I beat it
up
So I say we drop the stress, hit the room and heat it up

Had a long day, and I'm fed up with ya naggin
I'm wishin I could lie but you the reason why I'm
draggin
You brought me down, so you better pick me up
Yeah, yeah you better pick me up
Yeah, yeah you better pick me up
