"The Bang Bangs"

Visit "[The Bang Bangs](#)" on MotoLyrics.com

I play the bang, bang, bang, bang bangs

All the eruptions go out at night
Tonight they'll come out and ignite my sight
All the distractions make it so right
The sound they play makes us all jump with fright
The sweet disruptions, I'll find it, hold tight
Running 'round the place, I'm hidden from light
I think I found what I want, I can't wait
Cannot control my heart rate 'cause

Play the bang bangs, here we go
On marching drums and beating out songs
We play what we want you to know
So here we go

(Bang bang)

I know I found what I'm looking for
Bones of steel spinning sticks are so hardcore
Seeing what's made and how they'll parade
Quick hits and special tricks are never delayed
I start to move and one stares straight up at me
Oh, what came next, I can hardly believe

Come and join us, here we go
On marching drums and beating out songs (You play
the bang bang)
We play what we want you to know (I'll play the boom
boom)
So here we go

Play the bang bangs, here we go (You play the bang
bang)
On marching drums and beating out songs
We play what we want you to know
So here we go, go, go

We play down on it
The way we want it
Come and join it

We play down on it
The way we want it
Come and join it

Come and join us, here we go (We love the booms
booms)
On marching drums and beating out songs
We play what we want you to know (Bang-diddy-bang-
bang-boom-boom-boom)
So here we go

Play the bang bangs, here we go
On marching drums and beating out songs (I know
what I know)
We play what we want you to know
So here we go (I play the drum drums)

We play down on it
The way we want it
Come and join it
We play down on it (Okay)
The way we want it
Come and join it
