Can't stop this raging aggression  
Can't stop this strong revolution  
When you had to enact, you didn't wait for me

Can't stop this fire for freedom  
It's time to burn down your kingdom  
What a lie had I lived, now it's time for change

What we do, is what we believe in  
What we do, is what we believe in  
What we do, is what we believe in  
What we do, is what we believe in

One song bring all alliance  
One thought rage broken silence

We're the force that is one, we fight no blame

All cries no justification  
All fists we fight for retention  
This is it, this is now and we fight no blame

What we do, is what we believe in  
What we do, is what we believe in  
What we do, is what we believe in  
What we do, is what we believe in

I believe in fighting back for my name  
Strong, uphold rage, in spite of being hollow  
And I'm scarred, scarred, scarred  
Scarface
