(Spoken)

Come on girl, hear me out I know I messed up.
Listen, Craig James

[Verse 1]

Watch it girl, this shouldn't break us apart tonight
Take it slow, relax and reset your mind tonight
Take a breath, let's put it all in the past tonight
Cause you know I'm lost in your eyes tonight

[Bridge]

Let it go let the moment take control and you know
We'll start again, we can make it past the rubble and
though
You doubt your heart, but my love is just a turbulent
flow
Energy in the mind has the power to grow
Set it free, let it be it's just you and me now.
Holding back's just your fears overcoming with doubt.
I'll make it right if you let me. Let me show you. Let
me bring you back the days when nothing mattered but
just you and me.

[Chorus]

I really need your love
I'm countin on above

To bring you back to me

I know I lost your trust
Bring back what you called us
I know this isn't lost
Cause without you I'm gone

Gone (x4)

I said baby without you I'm gone

Gone (x4)

I'm Gone (x3)

[Verse 2]

Rewind, just remember all the days before we
shattered
and your love wasn't caught in a maze.
I know I'm wrong and your hurting from all the mistakes
Forget the past and get lost tonight in my embrace
Just stop, your dwelling on all the wrong.
Negativity will only bring along the fall
Have faith, the power of love is strong.
I wanna know that you can make this thing carry on.

[Chorus]

Just give me one chance now.
One night and we can turn this thing all around.
Tell me what I gotta do to bring you back to me.

[Brige]

[Chorus]
