Larry Pastorus, I thought you should know I suppose I  
was wrong and now your long gone  
Whatever happened to the promises of stickin around  
and stayin in town  
If you want to play me that record

Why'd you go without saying goodbye, I could've sworn  
that you died  
Every night I thought of you  
Larry Pastorus what can I do

You can't say that we didn't meet, you dated my sister  
and you sold to my mister now you walk to a different  
beat  
I suppose that I could forgive you as long as you do me  
no harm and get back to your charm  
If you want to play me that record  
Why'd you go without saying goodbye I could've sworn  
that you died  
Every night I thought of you Larry Pastorus what can I  
do

When we listen to records at your place you always put  
a smile on my face  
You showed me the stuff that made me tough and  
after that I couldn't get enough  
Whatever happened to hanging out I miss you man I  
miss our friendship

Why'd you go without saying goodbye I could've sworn  
that you died  
Every night I thought of you Larry Pastorus I bid you  
adue
