Like a Model

Hook:

She stunt like a model

Roll like a model

Move like a model

Dance like a model

She fly, she fly [x6]

Roll like a model

Gig like a model

Do the camera post

And hold it like a model

She fly, she fly [x6]

Verse1:

Lights camera action when you walk to the door

Everybody finne yea they finne for your post

So gone get to modeling it's a runway

Everybody freeze now dance to your own

One is for your ice & two is for your neck

Balling is your habit but stunting is your best

All you got to do is gig it to the left

Booty, booty, booty let the booty gone in clap

Yea iam feeling to good when iam right behind yo back

Feeling to smooth when you walk it like that

Little mamma that she only do it for the best

lamma star you a model in this the way she act

Verse2:

Little mamma so bad she got all of that
Hips, lips and she got all that back
Swaging in the club yea she do that model walk
The way she drop it down yea she make that booty talk
The way she walk, talk yea she got the game on lock
Step up in the club and she do that model walk
She do it, do it, do it, the way she stuck them hips
That body iam pursing
Walking down the runway got me all into
Little mamma so bad and she got your boy choosing
Kodak moment miss young fly and flashy
Steolites on her feet aniÂ't that girl classes
