Blastin' radios Girls in summer clothes Walking down
the beachside street To the rising heat Everybody's on
a roll Just a little out of control All set to misbehave and
you know we're gonna Cause these are the days too
soon the sun is gone Kick it and keep on going oh oh oh
oh oh oh oh oh we are soaked up in the heatwave we
are oh oh oh oh oh oh oh oh oh we are trippin on the
feeling we are kickin it like good times are never gonna
end my friend are you with me oh oh oh oh oh oh oh oh
we are soaked up in the heatwave we are Scenery
going by the movie is her skin camera fades to black
clothes don't mean a thing salt taste on her lips
running hand in hand don't know where this ends but
you know were gonna... Cause these are the days too
soon the sun is gone Kick it and keep on going oh oh oh
oh oh oh oh oh we are soaked up in the heatwave we
are oh oh oh oh oh oh oh oh oh we are trippin' on the
feeling we are kickin' it like good times are never
gonna end my friend are you with me we are oh oh oh
oh oh oh oh oh we are soaked up in the heatwave we
are Grab this picture perfect moment Living it up every
second Clinging on this feeling like a magnet to the
metal Tomorrow morning won't be bright and early
Things are getting hot hot and heavy Everybody
everybody soaked up in the Heatwave
