A wedding party
Party
Your wrists bothering you Glenn
Huh
Your wrists bothering you
Not at all
Just that one time
Why, you don't like this thing
Well I do, but I would rather have you play
How about if I play to a pattern

Move it!

All these people hear music
They're walking up here
Especially with that woman with blonde hair
She felt so good
In love

They say
What kind of wedding reception is this
Oh it's the wrong place
Ok
This is better
Much better
