I want to start.  
I want to find.  
I want to know  
where you go to hide.  
Cause Iâ€™m out of breath,  
my wind is gone.  
Running with fear  
of being alone.

Â‘Cause you really want  
to settle the truth.  
Let me be the one to  
offer you proof

Oh how you fit me  
Oh how you do  
but know that you own me  
ahead over you  
and oh how it hit me  
caught a bruise  
despite all these cynical lies  
I finally found a piece to fit  
In my life

I was adrift  
out on my own.  
You came along  
and carried me home.  
Cause you are a star,  
a distant headlight.  
I canâ€™t stop my eyes  
from keeping you insight.  
Iâ€™m not looking for a broken excuse  
but I need you now to comfort my wounds.

Oh how you fit me  
Oh how you do

you know that you own me  
ahead over you  
and oh how it hit me  
caught a bruise

despite all these cynical lies  
I finally found a piece to fit

Â‘Cause IÂ’ve made it alone  
a fading sun  
look at what IÂ’ve become  
and my eyes were drunk  
until you came along  
in a world thatÂ’s quite confused  
youÂ’re the only absolute

Oh how you fit me  
Oh how you do  
you know that you own me  
ahead over you  
and oh how it hit me  
caught a bruise  
despite all these cynical lies

Oh how you fit me  
Oh how you do  
but know that you own me  
ahead over you  
and oh how it hit me  
abound over you  
despite all these cynical lies  
I finally found a piece to fit  
In my life

I finally found a piece to fit  
In my life
