Your heart is made of cells,
never ending bells.
You know that I will always be there
with the wind always behind you,
may it always remind you
this world is just a sphere.
May it always bring you here.

Systematic way to another's takin you.
I will wait for you, I will wait for you.
One way out one way or another's
takin you and I will wait for you.
I will wait for you.

Well your sick of a circle now
and all that time allowed
shows you that life is short
and you should live it blindly.
And the rain is coming down
you never get a sound in
just know the words are noise
to everybody, toys.
Systematic way to another's takin you.
I will wait for you, I will wait for you.
One way out one way or another's
takin you and I will wait for you.
I will wait for you.

Falling in the dark,
you will find the day here
So wont you stay here?

with the wind always behind you,
may it always remind you
this world is just a sphere.
May it always bring you here.
Bring you here.

Systematic way to another's takin you.
I will wait for you, I will wait for you.
One way out one way or another's
takin you and I will wait for you.

I will wait for you.
Wait for you.
