[verse 1]

i started at the bottom, made it to the top now
damn its a beautiful sight, im lookin down now
everyones lookin smaller than a rock now
hard to make em out, im so high up in the clouds now
but its cool im just doin what im doin
alot people mad they aint doin what im doin
but im glad they aint got it like i got it
they just hatin tryin ta cause me many problems i dont
doubt it
but i cant see em, cause the light around me's blindin
i forget about the bad times and just keep strivin
im movin on just doin what i do best,
dont be mad cause i do what you do best
i just groove so smooth and remove stress
im now and forever, aint never whos next
So clever how im passin all the tests
in my world, yall suckers dont exist

[chorus]

its just me in the spotlight now
its just me in the spot right now
aint no one gettin hot not now
its my time imma shine right now

[verse 2]

its so bright lots of lights in my life now
im surround by stars, livin the life now
drivin cars, that could drain a bank account
and the cost, man i really didnt count
what you make in a month i can spend it in a minute
livin large i just live it how i get it
if its hard i done did it, and im glad i went thru it
and if its new you know the worlds goin do it
i dont see nobody else im just blinded by the fame
a hard road to walk but i made it out the flame

I cant believe that i made it to the top
but im here and imma stay at the top
and while im here at the top imma say what i want
the whole game might change how you stunt
and the people might say imma change but i wont

ill be the same, ill remain what i was A STAR

[chorus]

its just me in the spotlight now
its just me in the spot right now
aint no one gettin hot not now
its my time imma shine right now

[verse 3]

im the best that ever did it
yea the that ever lived and the best thats livin
check it precision i spit it
nothin compares to me clearly, you dont see the
severity
of the situation at hand just lend your ear to me
nothin can stop me, try to lock a spot at the top
cop a drop and a watch knots is stalky
apalacition neck wrist rocky yes bulky
calculated, next click up, its us watch me
many trials and tribulations i stood
rasied in the inner city, iceburghs, burbs to the hood
served what i could, flipped herb deserved to be good
murder one it wasnt me, but i had the nerve to be hood
from the nursery to the hearse i believe
im curssed from my birth till the season i die
i dont really know dont really wanna live no reason to
cry
blow weed in the sky
no time to whine im tryin ta make it happen
for real, the worlds on his grind so whats crackin
