Ok im tryna lay an island girl down
I wish I was laid up wit a island girl now
Soft skin walkin across the beach and we talking
All in u know it's about to go down
She got me like wow I really can't control myself,
Focus strollin wit her on my left
And if it was a problem you know ima holla
ima let u know myself
You bad bay
Even up on a bad day ima ready to kick it and give you
my last name
And I ain't gotta spit even if I got game
Chillin on the island livin in the fast lane
You got that.
