In the land of desert  
Front of darkness temple

I heard the signal tyrant  
The secret of dark Angel

The old man who was farm  
Alert me that they come

All they need to his die  
To change his religion lie  
Thy don't care if he will die

I walked to the golden pyramid  
ask my king if he shocked heed

All they need to his die

To change his religion lie  
Thy don't care if he will die

I can't let him alone  
While his army is gone

Every one refuse  
There is no time to lose

His People burn in fire  
The lands destroy and tire

I face my enemy while I'm alone  
( I try ever beat them inside the hall of Amon )
