You with me  
Handle free

No one can  
Stop my lain

There's a fire  
On the mountain higher

Filthy room  
I need my last virgin doom

Let me stay - with you now  
I tell you some thing - about your die

Have you play - play with me  
Final dark - extension be

Darkness , fire - my witches , tired

I can't stay  
Far than you - to make me high

from darkness vamp  
I find my secret - My beauty black tomb

I hold your body - like a mindless lover  
Your deadly body - my final graver

Have you play - play with me  
The Final dark - extension be

Let me stay - with you now  
I tell you some thing - about your die

From the darkness deadly vamp  
I find my secret - My beauty black tomb
