On the darkness mountains
I luring victims

They need my precious
My septic carcass

Crows of death surround my land
Vampire's virgins let me to suck them hand's

Now I feel with appetite
Filthy virgins need my ordinance

In the lusting time

I tearing her clothes
Upping her leg
Smell her cunt
Sense of filth
Inside my room
While raping the dead
In the bloody doom

All the time
Her blood on the bed
raping virgins
until the death
