Walking in to the forest between the
Highest trees no one can watch
Me while I hugging the reptile queen
I need to your hair and the diamond
In your ayesbut your kingdom
Is too Farfrom my caves

I want reach you before
The creations of the Existence
Nocturnal Forest Breathe deep their children
Them Desires burned while Judgments
As succubus slaves from the bloodless stars in the
skies
Darkness Â...Â... my promised fever
When the silent snow glistens
Deep her immortal necromantic soul

The dead pleased speak to her ancient tongue
Masturbating in their darkness graves
Towards the castle send her soul Vampiric Evil
Her Dark angels tasted my tears sacrifice my dead
heart echoes
Throw the wild gates unmask her face born blood on
stone
Our voices are opened graves while she's alone

Can't escape from thy darken souls
Behold your dark beauty of thy stirs conquer us
To the forsaken morbid road
She will come for me to erase my root
Take me to the eternal limp life

With her bloody darken wings
While she but her black lips on my skein
My darken blood come thro my hand
++++++
Inside the queen coffin we playing the Belial game
The funeral ceremony to the Satan virgin servant again
No one see my bloody rooms
The beauty faces from the smell To crashing bones

Hang them self with lisping kissing

Them black lips running blood with vesting

Having sex inside my rooms
I'm waiting you to smell your bones

Have you ever tray my knife
Cutting Organs smashing Unsaved

I need your filthy hands touching me all the time
To feel the sins of your fantasy worm inside

Open your filthy doors to my fork hurt
And let me enter your darken love Art

Find your secret atom harmony
And lave me die on your lovely red body

We will listen to the magical death tones
While I hugging you inside your secret rooms

All the time I looking to your sparkle ayes
that make me ignore the victims scream's outside
