Now my turn to the total war
Killing and hugs virgins more

See your hand
Of what you did

No one know
How many you killed

Butchering victims
Touch them Organs

Smell them blood
Having them cunt

Darkness tomb - filthy room
Come to the gelding ancient doom

they need to my ancient blood

They used to drink my secret flood

I get her body in my room
I m enjoying her lips in my doom

I can't be alone without hugging my
virgins bones

now she scream in frantic pain
I cant stop my lusting sucking vain

she still scream from painful lust
her riving vagina what I hacking like Gust
