here my forsaken path  
to forget every thing  
inside my mind

i left my life  
of peoples hate  
i used to suffer  
that make a dead

From along time - I left - every thing  
I feel Lose - except - my suffering  
ignore the life - that make me feel

with full of pain - my fults is real

Dark forsaken is what I need  
with darken crows that i want live

( I hate every thing even if my self )  
My decide is to leave the human kind life
