With souls encased in steel, we climb into forbidden
skies
We thrust into new realms, inseminate and desecrate

Ever seeing eyes, look deep into infinity
The ever-knowing minds, make paths and lead us into
our demise
One true agenda, to claim the sun, and claim all that is
nameless
Our hidden meaning, lost in the stars, our aim
displaced by our greed

Lost in our vanity, sold to insanity
We are chosen, to enslave the dark
Defy power, they too are mortal

Lost in our vanity, sold to insanity
We are chosen, to enslave the dark
Defy power, embrace knowledge, defy power, embrace
knowledge, counteract today

The dust that became us and the breath that awoke us,
have now given us the time, just time enough to
breathe.

The God of old now fading, a distant smile and time its
Judas
A final cry and breath, that cracks the sky and lets us in

Our myths and tales, now yield and fade, loose grasp
to our tomorrow
All faith abandoned, replaced with fire, that burns
across the heavens

Lost in our vanity, sold to insanity
We are chosen, to enslave the dark
Defy power, they too are mortal

Lost in our vanity, sold to insanity
We are chosen, to enslave the dark
Defy power, they too are mortal
