Supernatural

Lookin' for that big honey
You'll find only in a dream
I searched around and still can't find her
? ? ? to extreme

Turned around, she caught my eye
Tell me am I seein' things
Just might be imagination
? ? ? and hauntin' me

This woman (supernatural)
The way she looks (supernatural)
The way she moves her body (supernatural)
Everything about this honey is so supernatural

Supernatural

As I watch her move in closer
Perfect beauty she exceeds
Never question mother nature
She's an angel without wings

Her extension fills my body
I reach out to hold her hand
Tried to grab it, can't get a handle
The girl is gone, she was never here

This woman, yeah (supernatural)
The way she looks, uh-huh (supernatural)
The way she moves her body (supernatural)
Something about that woman that makes me feel so
good

(supernatural)
The way she looks (supernatural)

Supernatural baby, yeah (supernatural)
Everything about this honey is so supernatural

I'm tired of this cloud
Takin' over the invisible force
Are they controllin' me
Naw, that's a corny way I think
I take two beasts out to rethink

I'm takin' each in my dream
This is kind of extreme
Yo' ron, help me out
You know what I mean

Yeah, biv
It's not that deep
Come go with me
And out that ghost to sleep

(? ? ?) how she's possessin' me
(? ? ?) she's meta physical, super irical
(? ? ?) might be imagination
(? ? ?) ??cause everything about this, honey, I love

Alright
(supernatural) the way that she moves, mmm
(supernatural) there's no doubt about it, yeah, yeah
(supernatural) oh, I know heaven must have sent you
from above

(supernatural), yeah...
(supernatural) ooh...hoo...hoo...ooh...
(supernatural) say, baby, say, baby
If I'm dreamin', if I'm dreamin' please don't wake me
up, yeah

(supernatural)
(supernatural) see, I just wanna keep dreamin'
(supernatural) everything I want in a woman

(supernatural) and I love her, and I love her, and I
love...
(supernatural)
(supernatural)
